During the seminar, the final results of the activities carried out in the three countries will be shared, the observed impacts on the young participants will be analyzed, and final recommendations will be gathered to refine the methodology.

Particular attention will be paid to revising and finalizing the Handbook, which will be the project's main methodological output and a practical tool for youth workers, educators, music therapists, and professionals interested in using music, songwriting, and emotional education to foster empowerment and social inclusion.

The seminar will also provide an opportunity to finalize the planning of WP4's training activities, review the progress of the video lessons, and define the enhancement and dissemination strategies planned for the final months of the project.

Expected participant profile : Participants from Seminar 1 (Activity 2.1) and Seminar 2 (Activity 2.3), plus any other key members involved in the target group activities (WP3) or experts who can contribute specific skills and expertise to the development of the methodology. 8-12 participants in total.
